DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 12-15, drawn to a method of treating sexual functional disorders by administration of growth hormone.

Group II, claim(s) 16, drawn to a method of treating sexual functional disorders by administration of a substance that leads to growth hormone stimulation.

Group III, claim(s) 17, drawn to a method of treating sexual functional disorders by administration of a substance that induces a growth hormone analogous effect.

Group IV, claim(s) 18, drawn to a method of treating sexual functional disorders by administration of a substance that promotes IGF-I release.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: although the claims are all directed to the same method, they all use different compounds for achieving the method. Therefore, each method has a different special technical feature based on the compound which is being administered because methods of treating sexual functional disorders are known in the art, it is the compound which is being administered which is the special technical feature of the invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
